

# Aunt Sally Goes to Vegas

1-4 Players

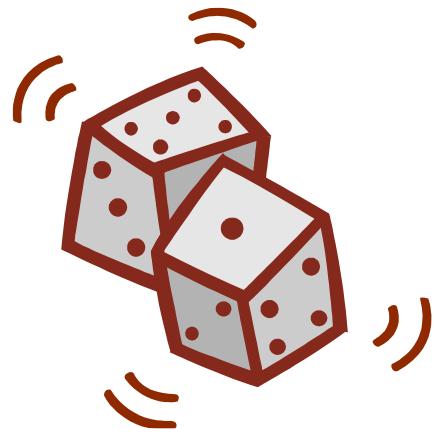

**Materials:**

1 white die

1 red die

1 green die

Score sheet/Double-check sheet

**Object of the game:** be the first person to achieve a score of 100.

**Add the value of the white die to the value of the red die.  
Multiply this number by the value of the green die.**

**Directions:**

1. Each person rolls one die to determine who goes first. The highest number rolled is first, continue in a clockwise order. (If there is a tie, have a roll-off.)
2. Roll all three dice, add the value of the white die to the value of the red die, then multiply this by the value of the green die.
3. Put this score down on your score sheet.
4. Everyone else playing should do a double check of this, to make sure that the player whose turn it is, put down the correct score. If there is a discrepancy, have a discussion in your group, and explain your reasoning.
5. Continue in a clockwise order. Only record the score that you rolled double check everyone else's score.
6. The person who achieves a score of 100 first, wins.

**Extension:** Raise the goal score to 500. Subtract the red and white dice instead of adding, etc.
