

## Match

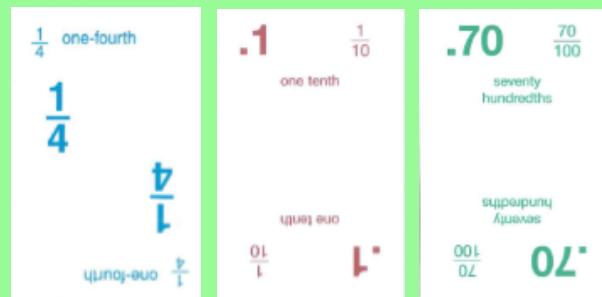

**Object:** To match Fraction Cards and Decimal Cards that have equal numbers.

**Players:** 2-4

**Materials:** Fraction/Decimal Cards

Turn three Fraction/Decimal Cards face up.  
Place the remaining cards in a stack face down.

Each player in turn takes the top card from the stack  
and compares it to the cards facing up.

If the card from the stack has the same shaded amount as one of the cards facing up, the player wins both cards. Player continues by taking another card from the stack.

When the bar from the stack does not have the same number as one of the face up cards, it is placed with these face up cards. Player's turn ends.

After each card in the stack has been used, the player with the most cards wins.
